The Course

The Italian language training program has been designed to support participants of the Italink project through an **initial language learning journey**, aimed at facilitating smoother integration into Italian social, civil, and professional life.

Through a clear, progressive, and highly contextualized teaching approach, the course enables students to acquire **essential communicative skills** for navigating key everyday situations: introducing oneself, finding one's way around places and services, and interacting in healthcare or work environments, building a concrete relationship with the language from day one.

The program is based on an **inclusive methodology** that does not require the use of a bridge language .

AUDIENCE

The program is **ideal for international students** from any linguistic or cultural background 2, 7. It is specifically crafted for those who want to navigate Italian life with confidence and achieve independence in their new social and professional environment.

COURSE EXPERIENCE

This online program is designed for maximum flexibility, featuring **10 on-demand lessons** of 40 minutes each, totaling 400 minutes of content 5, 6. To ensure a **direct and intuitive learning experience**, all content is presented exclusively in Italian, eliminating the need for a bridge language.

CERTIFICATION AND OPEN BADGE

Upon completion, a **certificate of participation** will be issued, accrediting the basic linguistic competencies acquired for daily communication in Italian 3, 4.

Participants will gain the ability to manage simple interactions in real-world contexts and reach a first level of **communicative autonomy**.

Structure of Each Lesson (40 minutes)

Each lesson follows a consistent, high-impact sequence to guide you from understanding to active use:

00:00 – Realistic Scene

Start with a recognizable situation to set the context 6, 8.

03:00 – Visual Vocabulary

Key terms are introduced through images and gestures for immediate understanding.

10:00 – Guided Pronunciation

Master the sounds and expressions through active listening and repetition.

16:00 – Sentence Building

Organize your new vocabulary into functional structures for practical use.

23:00 – Real-World Dialogue

Apply what you've learned in a contextualized communicative exchange.

30:00 – Guided Practice

Consolidate your skills through controlled speaking and comprehension activities.

37:00 – Cultural Insight

Explore the nuances of Italian life and culture.

39:00 – Final Wrap-up

A summary that highlights key takeaways and solidifies essential learning.
